

I strongly agree with the Bakers. And after receiving today's letter I am sickened by the attempt to deny the concerns of the Bakers. It is obvious that the Board is planning to ramrod this motion ahead and does not want the owners to know the truth.

My husband is an NC licensed contractor and he says about 90% of all construction has at least a 20% overrun. What do you plan to do with this extra cost? The economy is not strong enough for many of the people who either live in Lockwood or own lots to take on any additional expenses. And it does not matter how many lots that the Baker's own, lot owners do not receive any benefit from this outlandish community center.

I strongly oppose this center!!!! Will my NO vote be counted? With my opposition, will I even receive a ballot?

Association dues are currently due. What if we all refused to pay the dues as well as the assessment? How will you make your payments then?

I'll be looking for my posting in the Opposition side
